Year-End Trading Update

Cobra Biomanufacturing Plc (AIM: CBF), today updates the market on its second half performance for the financial year ended 30 September 2006.

Cobra has continued to make excellent progress. Revenue in the second half of the financial year increased by 33% compared with the first half and reflects our continued success in the North American market, along with an improvement in the Continental Europe. The majority of revenue was derived from specialist proteins and virus based manufacturing services.

The opening contracted forward order book of £5.6m (FY 2005 £4.2m) for the new financial year ending 30 September 2007, represents a continuation of these trends.
